## TFT's Laura Jones Elected to RICS Matrics Committee

Laura Jones, 24, a graduate building surveyor at Tuffin Ferraby Taylor's Bristol office, has been elected as Junior Vice Chair of RICS (Royal Institution of Chartered Surveyors) matrics Bristol and West Country.

Laura's election means that she will become Chair of the committee in 2013.

RICS matrics supports students, trainee surveyors and those with less than ten years' post qualification experience, along with surveyors new to the area.

Laura says: "RICS matrics provides networking opportunities for those starting out in their career as a chartered surveyor. The support offered through training events and networking opportunities are increasingly important at the current time."
